

# BROADER VISION SCHOOL

## Broader Vision School

Founded by Fr. George Ssemmbwe  
*Entebbe, Uganda*

When Fr. George's camera was stolen by a child living on the streets in Uganda in 2012, he made it his mission to give underprivileged children the opportunity to improve their lives.

Since 2014, thanks to the generous donations generated primarily by St. Louis families, the Broader Vision School has grown from a small single story school building to a three building boarding school serving more than 450 Ugandan children - more than half of whom were previously living on the street.

Funds raised by your generous donations during this Lenten season will help Fr. George continue his mission to serve these children through assistance with annual tuition, housing for the faculty, a safe cooking space and food for the school.

It is a constant struggle to raise the funds necessary to operate the school, because it relies substantially on donations. Please considering giving to this campaign so that each year, hundreds of lives can continue to be changed through the skills developed at this miracle in Entebbe.

### **BVS Mission:**

To provide a high-quality education to children in Africa who do not have access to schooling due to extreme poverty and homelessness.

### **BVS Vision:**

To empower children in Africa with a broader vision and skills for social economic development.

### **BVS Values:**

We believe that children in Africa have the right to a quality education regardless of their economic background where they are afforded the opportunity for "hopes and dreams to come true".
